
DACANAY, ERIL JOSH

BSCS - 2C

ABOUT ME

My hometown is Davao and my interests and hobbies are playing sports specifically ball games and programming.

SKILLS AND GOALS

My skills that I have been enhancing are problem-solving, communication, and programming.

Currently my goals is to finish college and get a job

THANK YOU

REFLECTION

The design principle that I found useful is contrast because it makes my element stands out. The easiest part of Canva is the tool panels because there is already a built-in designs, templates, tool, elements, and fonts that I can use to design a project. Visual communication is important because it attracts attention and makes a message memorable.
